PROFESSIONAL SUMMARY

Full-Stack Software Engineer specializing in building scalable, real-time web applications and distributed systems. Proven experience designing production-ready platforms using React, Next.js, Node.js, and cloud services. Strong focus on system performance, state synchronization, and API-driven architectures. Experienced working in international remote teams and delivering end-to-end features from concept to deployment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C++, Java

Frontend: React, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, WebSockets

Databases: PostgreSQL, MongoDB, MySQL

Cloud & DevOps: AWS, Vercel, Docker, CI/CD

Tools: Git, GitHub, Sanity, Appwrite

Core Concepts: System Design, Real-Time Systems, API Design, State Management

PROFESSIONAL EXPERIENCE

Software Developer — REMAX WISE (Remote, Lisbon)

Feb 2025 – Sept 2025

- Architected and deployed a production-grade real estate platform using Next.js and TypeScript.
- Integrated AI-driven assistants to automate customer inquiries.
- Designed a headless CMS architecture using Sanity.
- Optimized frontend performance and Core Web Vitals.

Full-Stack Developer Intern — Eman Halıcılık (Istanbul)

Apr 2025 – Oct 2025

- Developed and maintained scalable web platforms.
- Managed product synchronization across marketplaces.
- Improved system performance and security.
- Automated internal reporting workflows.

Application Full-Stack Developer Intern — Proceedit (Remote, Barcelona)

Feb 2024 – Aug 2024

- Developed UI components and improved responsiveness.
- Optimized PostgreSQL databases.
- Built Python automation scripts.
- Supported AWS-based deployments.

PROJECTS

Collaborative Whiteboard

- Built a real-time multi-user drawing app using Canvas API and WebSockets.
- Solved synchronization challenges for concurrent users.

MoChat App

- Developed a real-time messaging system with presence tracking.
- Handled race conditions and state synchronization.

Sentiment Analysis API

- Built a REST API using Flask and NLTK for real-time sentiment analysis.
- Integrated backend with frontend for live usage.

E-Commerce Platform

- Developed full-stack marketplace with authentication and order management.

EDUCATION

B.Sc. Computer Engineering — Altinbas University (2022–2026)

LANGUAGES

French (Native), English (Advanced), Turkish (Intermediate)

CERTIFICATIONS

- The Complete Web Developer Course 3.0
- 100 Days of Code in Web Development
- Web3 Technologies (Rise In)
- The Complete Data Science Course
